

Our Mission

is to promote and help fund the best possible learning opportunities for all students in the White Salmon Valley School District by:

- *Providing a stable source of supplemental funding*
- *Funding curriculum enhancement and professional development*
- *Seeking funding from other public/private organizations*

“The Education Foundation was established just in time to help support education for our students. The State of Washington is facing a \$5.7 billion shortfall and by the March economic forecast could face a shortfall of \$7 billion. At a time when the school district will be facing certain cuts in staff and budgets, the Education Foundation’s donations will become even more critical than before the budget crisis. I would like to personally thank all of the donors as your money is being very well spent on the students of the White Salmon Valley School District.”

Dale Palmer, *Superintendent of Schools*
